

CREATING PERSPECTIVES – WITH PEOPLE

OUR SELF-IMAGE

OUR MISSION & VISION

Our mission is to help, strengthen and attend people in and around Cologne. The Diakonie Michaelshoven embodies charity.

With hope and a trust in God, we advocate for people, create new perspectives with them and shape our society.

Our goal is for every human to have a dignified, self-determined, safe and good life.

OUR VALUES & PRINCIPLES

We believe that every human is of equal worth!

Because of that, we meet each other and the people we are there for on eye-level, with kindness, respect and appreciation.

Regardless of faith, gender, social status, origin, disability, sexual orientation, age or any other human trait.

Particularly in moments of disagreement between us.

We are close to the people and direct connection is at our heart.

Our community is coined by evangelic values.

Anyone who wants can visit our church services, take advantage of pastoral care, shape spiritual activities and much more.

We value high-quality work.

Because of that, we like to try new things, learn from others, support and complete each other.

All while our range of services connect in a meaningful way.

We work economically.

We spend our time, money, natural resources and personal strengths carefully.
